Dr. Scherago, Minus Shoes, City's Most Famous Tragedy To Be Shown Gives Lectures Is Recalled By Dueling Pistols Here Tuesday Here Tuesday Recently Given To University

A brace of dueling pistols, linked with what is probably Lexington's most famous tragedy, have been presented to UK and are now being exhibited in the Margaret I. King library.

One-time owner of the weapons was Col. of the U.S. government to improve William C. Goodloe, Kentucky statesman and landowner, who met his arch political rival, Col. A. M. Swope, in a pistol-knife affray in the Lexington post office, with the affair resulting in the death of both participants.

Col. Goodloe dld not have the pistols in his possession the afternoon of the fatal encounter. He was at the Medical School of Kyoto Unl- carrying a large dirk knife, sharpened to a razor's edge on both sides, with which he stabbed his opponent 13 times. During the struggle Swope fired a bullet from sat in their stocking feet on the his .38-caliber pistol which caught Goodloe in the

Swope Killed Instantly

Death came instantly to Swope, but the bullet didn't prove fatal to Goodloe until 48 hours later. Goodloe dragged himself from the postoffice after the encounter and, following treatment at a physician's offlee, was taken to a room in the Phoenix Hotel, where

The fight, as recorded in L. F. Johnson's "Kentucky Tragedies and Trials." was fought on the afternoon of Nov. 9, 1889. The political rivalry of Swope and Goodloe, both natives of Lincoln County, dated back several Opposing Candidates

They were opposing candidates several times for revenue collector for the Lexington district, and Goodloe was serving in that capacity at the time of his death. Both aspired to become leader of the Republican party and governor of the Commonwealth.

Word of the polltical feud between Goodloe and Scherago as the favorite form of Swope became known throughout Kentucky long before the two met in the post office building. The "The costumes are always very pistols now being displayed at the University were colorful and the young women are presented to Goodloe by his uncle, Gen. Cassius Clay, beautiful, but the dances are always after he reportedly heard about the feeling existing

The relationship of General Clay and Goodloe had been very close since 1861, when Goodloe withdrew Although Dr. Scherago comments from Transylvania University to accompany his uncle on the suffering caused by the heat to St. Petersburg, Russla. Clay had been appointed in the jungles and urban sections of minister to Russia by President Lincoln, and Goodloe Thailand, he confides that he has served as his uncle's private secretary during their

We Can Accept Criticism, But It Should Be Reasonable

In the Readers Speak column this week there appears a letter criticising the recent Kernel poll reporting typical student and faculty opinions on the UK athletic program. We appreciate reader Havnes' letter, just as we appreciate any letters or comments from readers, but we think Mr. Haynes' criticism is unfair and deserves an answer.

The indietments brought against the Kernel can b st be answered by listing them in order and then taking them up individually:

(1) He elaims that our poll questions were "loaded" . . . particularly the third one in which we asked if the athletic situation here was any worse than it is at other schools.

(2) He belittles our faculty responses, especially the number, and implies that we may have stretched the truth in interpreting them.

(3) He accuses us of "resorting to shady journalism to defend our (UK) athletic program from outside eriticism.

Our questions were not formulated with the purpose of obtaining any particular answer, as reader Haynes charges. The third questions was drawn up hecause we were aware, as apparently reader Haynes is not, that many of the students and faculty at UK have been enrolled or employed at other schools. We felt the reactions of those people who bad observed the athletic situation at other places might well serve as a valid basis for comparison with the program here.

One of the most welcome contributions to be

made by any veterans organization since the close

of World War II is the international magazine New

Era, published by the World Veterans Federation.

With its emphasis on peace and methods of pre-

serving it. New Era presents readers with food for

valuable thought, rather than a mere journal of or-

useful tecliniques along those lines.

ganization activities.

Concerning the results of the Kernel poll, reader Haynes seems unduly alarmed that we reported a summary of responses that included the use of fractions of per cents. Possibly reader Haynes is not aware of the techniques used by most public opinion experts. When tabulating answers these gentlemen usually note the total number of persons polled and then give the percentage of pro and con answers. An example may make this method clearer. Assume that 1000 answers, both pro and con, are received. When the answers are being tabulated it is found that only 15 persons have answered "yes." In the summary then, one would have to say that 1.5 per cent of those polled answered "ves."

In a side note, reader Haynes complains that the answers were not picked up. If he will check his copy of the questiannaire, we believe he will find that there is a note directing the pollee to return his answers to the Kernel office. It further states that the paper will not pick the answers up.

In answering the first two charges, it seems that we have also taken eare of the third. No, reader Havnes, the Kernel did not resort to "shady journalism." We had no axe to grind, but instead tried to obtain an objective report of what our readers thought on a question of some significance. It is hardly our fault if the answers we received, tabulated, and published did not coincide with any particular individual's personal theory of just what public opinion should be on campus.

staffer Mary Burnet's "The Dangerous Danireans."

Miss Burnett, who has previously worked for the

European edition of the New York Herald Tribune

and Harpers magazine, points out the misinforma-

tion and groundless ideas that lead to racial and

national prejudice. On the question of patriotism -

a subject of great importance to veteran's organiza-

tions it seems - Miss Burnett quotes a historian as

saying: "Patriotism is a question of preference and

constructive thinking about maintaining the peace

Readers Speak...

Dear Editor:

I object to the bias and inaecuracy of your recent poll of student and faculty opinion on athletics. The whole procedure from beginning to end violated every principle of objective opinion gathering and news reporting.

First, the questions asked in your poll were loaded. For example, your third question asked whether we thought the athletic situation at the University was worse than at any other college or university. Ohviously none of us are in a position to answer this question, but the reader might imply that a "no" answer would indicate the athletic sit-

The faculty response to the above question is even more interesting. Even though only thirtyfive questionnaires were returned to the Kernel (the Kernel neglected to pick up the questionnaires filled out by members of the College of Commerce), yet 1.1° answered "yes", according to your report. would like the Kernel to explain how it determined which professor should count only as a fraction.

In short, not only have you sent out loaded questions but you have misinterpreted the replies. If I were to enumerate all the examples of distortion in your article this letter would run on endlessly. Is it necessary to resort to shady journalism to defend our athletic program from outside criticism?

Yeali I know Bertha Ann, I got three of 'em on aud it still don't help none.

Fear And Frustration, Censorship And Ambition Tangle With Sex In Book About College Morals

A Matter of Morals by Joseph Gies. Harper and Brothers, New York, N.Y.

If simplicity of writing is a virtue, Joseph Gies might well be called over-virtuous. His book, A Matter of Morals, supposedly lashes out at the moral disintegration of a pre-war American university, but, at the most, he achieves the style of a writer of children's fables.

The characters, all adequately described by such adjectives as self-centered, power-mad, and semirealistic, get off to a poor start in the first chapter and gradually work themselves up to a frenzy of activity. The reader wonders if perhaps Gies was

Deals With 'Red' Hysteria

Basically the story revolves around an axis of anti-communist faculty members, over-sexed professors, and flighty members of the student newspaper. The sole note of reality creeps in when a candidate for the head of a department writes a book. Things like that, no matter how the author may relate them, do happen.

The protagouist, Victor Townsend, assistant professor of history at the fictional university, finds himself living with a wife who is intolerable, especially when she begins complaining about his defense of three students on the college newspaper who are suspended because of alleged communistic activities.

Sidell, star reporter, socially awkward, and inexperienced with everything ranging from accurate news stories to women, works frantically to please the editor of the paper, who nominates future editors. As a junior in college, he is thrilled at a

not deprived of the editorship of his college paper, beer party frequented by girls of questionable as was Philip Sidell, one of his nebulous characters. morals, men of questionable morals, and faculty members of unquestionable morals.

Secretary Scorns Prof

Townsend has an affair with his secretary and begins to worry about being discovered by his wife. He breaks off with his illicit lover, and, very fittingly, exits by being compared to the backmost part of a horse's anatomy. To make his life even more tragic, he cloes not get a coveted position as head of the history department.

The last glimpse of Sidell portrays him crawling off to a tavern to forget about losing the editorship of the paper.

In order to be absolutely fair to Mr. Gies, the portrayal of the dcan of men must be admired. As a bull-headed, inadequate man, with chance and the "right" men on his side, he is the only character who acts in character.

Mr. Gies has surpassed Dostoyevsky in writing a depressing ending, but he could easily be surpassed by Aesop as far as realism is concerned.

Country's Top Coaches Due Here For Annual UK Clinic

Rupp will have three of the top; coaches in the nation assisting them this year. Assisting Bryant will be H. O. (Fritz) Crisier, athletic director of the University of Michigan and Lynn (Pappy) Waldorf, football coach at the University of Caiifornia

Crisier, before taking over the reins as athietic director at the Michigan school was head football coach. In 10 years of coaching (1938-1948), he is credited with founding the "piatoon system" and developing the buck lateral and spinner attacks into one of football's great offenses. During his tenure as coach of the Wolverines his teams won two Western Conference championships and a Rose Bowl title. Crisler was named "Coach of the Year" ln 1947. He is now serving as chairman of the NCAA football rules committee.

Pappy Waldorf, veteran grld mentor at the University of Caiifornia has 25 years experience as a head coach with the Goiden Bears, Northwestern, Kansas State, and Okiahoma A. and M.

Since moving to the Pacific Coast Conference in 1947, he has guided the Golden Bears to three Conference championships and an equal number of trips to the Rose Bowl Since 1947 his teams have lost only three regular-season games. For years he was one of the country's leading advocates of the single wing, but now uses modifications of the
